

PRIVATE ACTIVITY BOND REVIEW BOARD

An Office of the State of Utah Department of Community & Economic Development

MANUFACTURING FACILITY APPLICATION

The purpose of this application is to provide information to the Utah Private Activity Bond Review Board to aid in allocation of Volume Cap.

In recognition of the intense competition for this important and scarce resource available under the State ceiling, applicants are required to provide full explanations of the need for tax-exempt bond financing for the project and the public benefits of the project. The applicant should be aware that there is a limited amount of Volume Cap and that there is the possibility of insufficient funds to accommodate all applicants. Therefore, careful comparison of individual requests is necessary to promote the highest and best use of the Volume Cap. To facilitate careful comparison and evaluation of each application, the applicant is required to complete the application in its entirety. Among the criteria used in the evaluation are:

- a. Public Benefit to the community and State, including: new employment, wages and distribution of wages, programs promoting employee education and skill
- b. Community support and sponsorship
- c. Efficiency as measured by employee/bond ratio
- d. Demonstrated need for tax exempt financing
- e. Innovative financing (i.e. use of other sources of funding)
- f. Construction and equipment costs
- g. Location of facility: rural, area with high unemployment rates, disadvantaged economic areas, etc.
- h. Financial capacity of applicant

The applicant is required to submit 3 original copies of the completed application on or before the deadlines listed on the web site. An application fee is due at the time of submission. Incomplete applications, including omitted fees, are subject to disqualification. For a schedule of fees, application deadlines and meetings of the Private Activity Bond Review Board, please refer to web site at www.dced.utah.gov/pab.

Send 3 original copies of completed application, exhibits and fees to:

3. Whether relocation is necessary to prevent the relocation of substantial operations of the company outside the State, or the abandonment of substantial operations of the company. If so, please explain.

Part 6—PUBLIC BENEFIT

The primary criterion used to evaluate a proposed Project is the public benefit it generates. The principle benefit is employment followed by wages. While the benefits generated by the construction are important, it is the long-term benefits generated by the operation of the facility that are most important. In order the estimate the direct and indirect benefits of the project, this section begins by a review of the characteristics of the proposed site. Clearly, an area that has a lower income and employment will benefit more from a new facility than one that is performing well. **Consider the following questions and answer with “yes” or “no” as it may be related to this project:**

- A. Is the proposed Project located in a community with an unemployment rate equal to or greater than 125% of the statewide average?
- B. Is the proposed Project located in a community with a median household income 80% or less than the statewide average?

- C. Is the proposed Project located in a community that has been designated as a “hard to develop area for residential projects”?
- D. Is the proposed Project located in an Enterprise Zone or another Special Designation Area?
- E. Is the proposed Project located in a community that has a poverty level equal to or greater than the statewide average?

If any question can be answered with **YES**, please explain in an attachment.

Job Creation:

Using the chart below, provide the Project Sponsor’s or User’s current figures on employment and sales volume and the best estimate of these figures at the completion of the project and two years after completion:

Statewide Operations:

	Current	Upon Completion	2 Years after Completion
Number of Locations:			
Total Sales Volume:			
Number of Employees:			
Total Payroll:			

Project Site:

	Current		Upon Completion		2 Years after Completion	
	# of Employees	Average Hourly Wage	# of Employees	Average Hourly Wage	# of Employees	Average Hourly Wage
Total Employment:						
Management:						
Skilled:						
Semi-Skilled:						
Unskilled:						
Total Payroll:						

Weighted Average Hourly Wage:

Other Public Benefits:

- When completed, what will be the annual property taxes for the facility?
- Will the company offer any on-site training? If yes, please explain.
- Will the company be involved with the local school district in providing job training to students? If yes, please explain.
- Will the company pay a percent of employee medical plan? If yes, please explain.

- e. Will the facility have an energy efficient design and construction? If yes, please explain.
- f. What percent of taxable bonds will be used to finance the project?
- g. Has the community (city, town or county) contributed any financial resources to the project?
If yes, please explain.
